

About HBEA

The Hawaii Building Engineers Association is an association for those individuals working in Commercial Building Real Estate and Hotel Organizations throughout the Hawaiian Islands.

Mission of HBEA

- The mission and objectives of the Hawaii Building Engineers Association is to bring professionals together to share information, promote and advance the knowledge and expertise of building professionals through education and networking.
- Provide a forum for social interaction with a minimum solicitation of products and services.
- To encourage cooperation of all outsourced and in-house workers to solve problems in their buildings.
- Promote the certification of building workers in Hawaii.
- Provide a place for new job openings and resume posting.
